

Guiding Principles

1. Create equal opportunities for learning throughout district.
2. Provide safe and welcoming facilities.
3. Develop spaces which can be adaptable, flexible, and functionally efficient.
4. Create healthy environments for learning and work.
5. Create adaptable environments for technology enabled learning.
6. Learning environments should be age and curriculum appropriate.
7. Incorporate sustainable solutions.
8. Develop safe areas to promote outdoor play and learning opportunities.
9. Engage community connection with shared spaces.
10. Environments must allow for advancement of next generation skills.
11. Promote a vibrant, engaging identity/brand for each school.
12. Accommodate future population shifts.
13. District-wide – make library spaces more flexible and an extension of classrooms.
14. Accessibility should remain a district standard.
15. Improve occupant flow in schools.
16. Site traffic and movement should be convenient and safe.
17. More space.
18. Create spaces to support wellness.
